| Subject: | RE: trials on 5/17/11 |

Hi Sarah-

I'm curious if anything has changed in the following 2 cases scheduled for trial on Tuesday, May 17th:

CW v. ███████████████████
CW v. ███████████████████

As I have previously mentioned, I also have a trial scheduled in Bristol County that day, so I am trying to figured out where I may actually be needed. I have already emailed the ADA there to see where his case stands, but I have not heard back from him yet. Thanks.

Sonja,
On ███████████, I really could not say at this point whether it will be a trial or not. Defendant has waived his motion to suppress in this case, so that means it could very well be a trial. If I hear that defendant wants to tender a plea, I will let you know.
Sarah

Hi Sarah-

Besides the ███████████ case (#███████████) scheduled for 5/17/11, I received a summons from you for the ███████████ case (#███████) for the same day. As I previously mentioned, I also have received a summons to be in Fall River that day. I know that you said you would get back to me when you knew the outcome of the motion to suppress in the ███████ case, but I am wondering if you have any feeling as to whether or not the ██████ case will actually go to trial on 5/17/11? I'm just trying to keep the ADA in Fall River informed in case the case there needs to be rescheduled. Thanks for your attention.

Sonja,
I am waiting to hear back from the judge on a motion to suppress we argued in this case.  Once I know the outcome, I will email you.
Thanks for the heads up,
Sarah

Hi Sarah-

I received an email today from an ADA in Fall River informing me that one of cases that I analyzed the drugs for has been continued to 5/17/11, the same date as your Rafael Fontanez case.  I am curious if you think that the case will actually go to trial (I know that it is a little early to know) and, if so, would it be possible to go out of order and get me on the stand first so I could get to Fall River in the afternoon?  I told the ADA there that I would try to find out if there is a chance I could make it there.  Thanks.

Hi Sonja,

This trial date got moved today since April 20th is right in the middle of school vacation week and we will have very few judges.  The new trial date is May 17, 2011.  You will be receiving a new summons for that date.

Sarah

Hi Sarah-

I just wanted to let you know that I received your summons for the ████████████ case scheduled for trial on April 20, 2011. However, I do have another district court case scheduled in Pittsfield that day. From previous communications with the ADA for that case, I am under the impression that it will be resolved short of trial, but probably not until the day of the trial. I'm thinking that she will have me on call just in case. With that said, I will most likely be available for your case if needed. Sorry if this is an inconvenience.
